

THE NIDDERDALE SOCIETY

HOUSING DEVELOPMENT PLANS IN THE DALE

Harrogate Borough Council have published details of parcels of land offered by landowners for housebuilding.

These will be included as potential housing development sites in HBC's 'Planning for the future'. The sites will be assessed as to their suitability and, after consultation with local communities, could then be included in the next 'Plan for the Future'

Many new sites in Nidderdale are currently on offer and the Nidderdale Society has been able to establish where these areas are.

Any one of these sites may not affect you personally, but for the sake of the preservation of the landscape of this Dale, we need to be vigilant and fully aware of plans which may be out of character due to size or location.

The Nidderdale Society does not support a '*no build at any cost*' policy - some new build homes will be needed - but we are very much aware that this area of Outstanding Natural Beauty has to be managed with great care.

Detailed information can be found on the HBC website at:
